FOR EMPLOYEES

Your employment guarantees during the waiting period:

Job continuity

You can remain in your current job in full compliance with the law.

New contracts

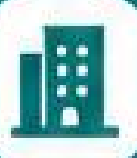

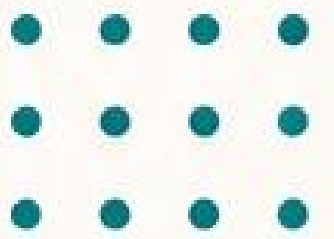

Any company can offer you a new employment contract during this period.

Social security

You have full rights to social security and can contribute as normal.

FOR COMPANIES AND EMPLOYERS

Key information about hiring:

Valid work authorization

The admission to the procedure is a valid document that guarantees the employment relationship with full legal security.

The deadline does not end the contract

The mere expiration of the deadline for a decision by the Administration does not terminate the contract.

Legal security

The employee keeps their right to reside and work until an explicit decision (approval or refusal) is issued.
